Decline Vaccines Legally

Step 1) Do not 'refuse' a vaccine otherwise you'll be considered belligerent. Instead you can politely decline their services by doing the following.

Step 2) Ask the doctor if the vaccine has MRC-5 in it (they all do, these are aborted fetal cells and other DNA). If it does you have the right to decline. (over for step 3)

Step 3) Also ask if there is a possibility of a "latrogenic reaction" (an adverse reaction caused by multiple compounds or drugs interacting with each other) from the vaccine (they all do). When the doctor says, "Yes it does". Thank the doctor for their offer and walk away.

Remember, doctors have sworn the Hippocratic Oath (which is do no harm) and they MUST honour it. This is how we can legally (and respectfully) decline their offered mandated services and there is nothing they can do about it.

Now you know!
